Coverage map image placeholder added to plans page	✅ Done
Netlify form integration for lead capture	✅ Done
Meta titles, descriptions, and OG tags optimized for every page	✅ Done

Your Homework — Action Items for Jenna

These are things **only you can do**. They require your personal touch, your accounts, or your real-world connections. Each one will directly help your website rank higher and attract more clients.

🔴 HIGH PRIORITY (Do These First)

---

1. Register Your Domain Name

You need to purchase **jennatrejoinsurance.com** (or your preferred domain) and point it to your Netlify site.

- **Where:** Namecheap.com, Google Domains, or GoDaddy
- **Cost:** ~$12/year
- **Why it matters:** Without a custom domain, Google can't index your site properly. This is the #1 blocker for SEO right now.

How to do it:

1. Go to namecheap.com and search for "jennatrejoinsurance.com"
2. Purchase the domain
3. Let us know and we'll connect it to your Netlify hosting

---

2. Set Up & Optimize Google Business Profile

This is the single most impactful thing you can do for local visibility. When someone Googles "health insurance agent Amarillo TX," the map results (Google Business Profile) show up ABOVE regular search results.

How to do it:

1. Go to business.google.com
2. Sign in with your Google account
3. Click "Add your business" → "Insurance Agency"
4. Business name: **JT Insurance** or **Jenna Trejo Insurance**
5. Address: Use your Amarillo business address
6. Phone: 575-937-6519
7. Website: jennatrejoinsurance.com
8. Category: "Health Insurance Agency"
9. Add secondary categories: "Insurance Agent," "Life Insurance Agency"
10. Write a description (150-300 words) mentioning: Amarillo, Texas Panhandle, PPO plans, families, self-employed, 33 states
11. Upload your professional headshot + any office photos
12. Set your hours

Why it matters: Most of your local competitors either don't have this or have weak profiles. This puts you on the map — literally.

---

3. Add Your Professional Headshot to the Website

You sent us a great professional photo (turquoise blazer). We need the high-resolution file to add it to your About page.

What to do:

- Send us the full-resolution version of your professional headshot

- Also send the family photo if you'd like it as a secondary image
- We'll size and optimize them and replace the placeholder on the About page

---

4. Upload the Coverage Map Image

We've added a placeholder on the Plans page for the 33-state coverage map you shared. We need the actual image file.

What to do:

- Send us the coverage map image (the green US map showing your 33 covered states)
- We'll add it as `images/coverage-map.png` on your site

🟡 MEDIUM PRIORITY (Do Within 2-4 Weeks)

---

5. Collect 3-5 Real Client Testimonials

Your website currently has placeholder testimonials. Real testimonials are one of the strongest trust signals for both Google and potential clients.

What to ask clients:

- "Would you mind sharing a quick sentence or two about your experience working with me?"
- Ask them to include: their first name, city, and what type of coverage (family, self-employed, etc.)

Example format to collect:

> *"Jenna saved our family over $800/month on health insurance and the whole process took less than a week. She answered every question and never pressured us." — Sarah M., Amarillo, TX*

Goal: Get at least 3 real testimonials. Send them to us and we'll replace the placeholders.

---

6. Ask Happy Clients to Leave Google Reviews

Once your Google Business Profile is live, this becomes critical.

How to do it:

- After helping a client, send a text: *"Hey [Name]! So glad I could help with your coverage. If you have a minute, a Google review would mean the world to me. Here's the link: [your GBP review link]"*
- Google reviews directly impact your local search ranking
- **Goal:** 5-10 reviews in the first month

Why it matters: Your top local competitor (The Haworth Company) has ZERO testimonials on their site. Even 5 Google reviews will give you a massive edge.

---

7. Create Social Media Presence

You don't need to become an influencer — just establish a presence on 2-3 platforms.

Recommended platforms:

1. **Facebook Business Page** (most important for your demographic)
2. **Instagram** (good for personal brand / behind-the-scenes)
3. **LinkedIn** (professional credibility)

What to post:

- Quick insurance tips (1-2 per week)
- Client success stories (with permission)
- Local community involvement
- "Did you know?" health insurance facts
- Your referral program ($100 bonus)

Why it matters: Social media profiles create "backlinks" (links pointing to your site), which Google uses as a trust signal. Plus, it's where your clients already spend time.

🟢 ONGOING (Monthly / Quarterly Habits)

---

8. Submit to Local Business Directories

List your business on these free directories. Use consistent info everywhere:

- **Name:** Jenna Trejo Insurance (or JT Insurance)
- **Address:** Your Amarillo address
- **Phone:** 575-937-6519
- **Website:** jennatrejoinsurance.com

Directories to submit to:

- [ ] Yelp Business (free listing)
- [ ] Better Business Bureau (bbb.org)
- [ ] Amarillo Chamber of Commerce
- [ ] Yellow Pages (yp.com)
- [ ] Nextdoor Business
- [ ] Facebook Business
- [ ] Apple Maps (via Apple Business Connect)
- [ ] Bing Places for Business
- [ ] Insurance-specific: TrustedChoice.com, AgentReviews.com

Why it matters: Consistent business listings across the web ("citations") are a top ranking factor for local SEO. Your competitors are listed on some of these — you should be on ALL of them.

---

9. Build Community Partnerships

This is your secret weapon that no online competitor can replicate.

Ideas:

- Partner with local CPAs/accountants (they advise self-employed clients who need insurance)
- Connect with Amarillo Chamber of Commerce events
- Offer free "health insurance 101" workshops at local libraries or community centers
- Partner with real estate agents (new homebuyers often need new insurance)
- Sponsor a local sports team or community event

Why it matters: Each partnership can lead to referrals AND backlinks from their websites to yours.

---

10. Consider Starting a Blog (Future)

This is lower priority but has huge long-term SEO value. Even one article per month on topics like:

- "How to Choose Health Insurance When You're Self-Employed in Texas"
- "Understanding PPO vs HMO: What Amarillo Families Need to Know"
- "5 Things to Look for in a Health Insurance Plan for Your Small Business"

Each article targets keywords that potential clients are searching for and brings them to your site.

Competitive Advantage Summary

Based on our analysis of 12 competitors in your market, here's where you stand:

Factor	Your Competitors	JT Insurance (You)
Schema Markup	0 out of 12 have it	✅ Full JSON-LD on all pages
City Landing Pages	None have them	✅ 6 Panhandle city pages
Blog Content	2 out of 12 have blogs	➡️ Planned
Mobile-First Design	~50% are mobile-friendly	✅ Fully responsive
FAQ Content	1 has FAQ page	✅ Comprehensive FAQ
Google Business Profile	~60% have one	🔴 **You need this ASAP**
Client Testimonials	Most have 0-2	🟡 Need real ones
Social Media	~30% have active accounts	🟡 Need to set up
Local Directory Listings	Inconsistent across all	🟡 Need to submit
Referral Program	None promote one	✅ $100 referral program live
Health Quote Form	Basic forms only	✅ Detailed health intake form
Supplemental Options Listed	Rarely mentioned	✅ Dental, vision, income & life protector

---

Bottom Line

Your website is already technically superior to every local competitor. The gap that remains is about *off-site authority* — things like Google Business Profile, reviews, directory listings, and social media. These are all things only you can build because they require your personal involvement.

The 3 most impactful things you can do this week:

1. Buy your domain name
2. Set up Google Business Profile
3. Send us your headshot + coverage map image

Do those three things and you'll be ahead of 90% of insurance agents in the Panhandle within days.
